**WESTERN IDAHO
FAIR**

The Treasure Valley Dairy Replacement Heifer Project, open to youth from several counties, aims to enhance knowledge of the dairy industry and develop life skills. Participants purchase and manage a heifer calf for approximately 16 months, learning about financing, budgeting, record-keeping, nutritional and reproductive management, and showmanship. They present their heifers at the Western Idaho Fair, where the animals are evaluated and sold. Community support is crucial to help cover the significant costs and support the participants' future endeavors.
